

# SNEAKER CARE LINE

Wearing EMMA Safety Footwear sneakers? Of course you want them to stay looking great and performing perfectly for as long as possible. By cleaning and maintaining your safety sneakers regularly, they'll keep their protective features, stay comfortable, and last much longer. To make that easy, we've developed the Sneaker Care Line – smart, effective products made especially for safety sneakers.

## Sneaker Cleaner

Our Sneaker Cleaner is designed to do one thing really well: clean. It removes dirt and stains from both uppers and soles. Dermatologically tested and easy to use, it makes your safety sneakers look like new again.

### How to use:

For best results, clean your sneakers after each use – mud and dirt can speed up wear.

- Remove coarse dirt with a separate brush.
- Gently scrub the dirty areas with the Sneaker Cleaner brush and sponge.
- Rinse with water and let them dry in a well-ventilated space.
- To protect your sneakers after cleaning, follow up with the Sneaker Protector Spray.

## Sneaker Protector Spray

Keep your safety sneakers safe from water and stains with our Sneaker Protector Spray! Its invisible barrier repels moisture and dirt, keeping your shoes looking fresh for longer.

### How to use:

After cleaning your sneakers, it's smart to reapply protection.

- Shake the can before use.
- Spray evenly from about 30 cm distance. Always apply outdoors or in a well-ventilated area.
- Let dry and repeat if needed for extra protection.

## Sneaker Fresh Spray

EMMA safety sneakers feature a breathable, antibacterial lining that regulates temperature and moisture to keep odors at bay. But sometimes your sneakers can use a little extra freshness – that's where our Sneaker Fresh Spray comes in!

### How to use:

Ideal for daily use and super easy:

- Remove the cap and place the can upside down inside the shoe.
- Press briefly on the bottom of the can.
- Repeat when needed.
