

BODYCOOL SMART-X

ACTIVATION IS EASY

Fill with water

Just fill the Bodycool Smart-X with 500 ml water.

Divide and Squeeze

Distribute the water evenly and squeeze out any excess water.

Enjoy immediate cooling

Your vest is now ready to use!

General Information

This advanced cooling vest provides powerful heat stress relief without refrigeration, gels, or chemicals, so it is convenient and maintenance-free. Its patented technology keeps the vest dry, lightweight, and comfortable to wear under breathable clothing. By leveraging natural evaporative cooling, the vest can cool your body by up to 15°C below ambient levels, depending on factors such as temperature, airflow, and humidity. Enjoy consistent comfort and improved endurance throughout your activities.

Key Features and Benefits

INUTEQ-DRY® technology is engineered for maximum performance and comfort, offering unparalleled advantages:

- **100% Dry Cooling:** The core innovation is its ability to cool without making the skin or clothing wet, ensuring maximum comfort.
- **Advanced Fabric Technology:** The technology incorporates a unique, patented multi-layer system with a breathable, waterproof membrane, ensuring superior performance and durability.
- **Exceptional Long-Lasting Relief:** This vest can provide cooling from 8 to 72 hours per activation, depending on factors such as temperature, airflow, and humidity.
- **Lightweight:** Even when fully activated, the vest remains lightweight. This cooling vest weighs approximately 600 to 800 grams.
- **Durable and Safe:** The materials used are non-toxic and comply with REACH and OEKO-TEX® Standard 100. The products are machine-washable, have antibacterial properties, and offer a long lifespan of up to 750 activation cycles.

Components

- Exterior:** INUTEQ-DRY® Nylon Jersey 50%, PU 50%, Ultra Fresh Antibacterial treatment
- Core:** INUTEQ-DRY® technology wicking polyester fleece
- Interior:** INUTEQ-DRY® Nylon
